

DEF TANK HEATER

DESIGN FEATURES

- Heavy-duty vinyl construction
- Blanket cycles ON/Off at 90°F
- 120V AC - CSA/UL approved
- Lower energy usage with cycle function
- Nylon strapping and grommets sewn into blanket for secure fit

HARD COVER CASE (OPTIONAL)

- Hard shell fiberglass construction
- Insulated to maintain heat
- Protects heater from outside debris
- Suitcase clips allow for easy removal and service of tank

BENEFITS

- NO employee downtime
- REDUCE costly field service calls to clear engine codes
- Blanket field tested to -50°C successfully
- DEF Fluid will not freeze over night when plugged in (vehicle not active)
